**Documentation and Accommodations**

When necessary, students requesting accommodations may be asked to provide documentation from qualified professionals licensed in the relevant area. This documentation should discuss the impact of a disability on the student's academic experience and include recommendations for accommodations. All documentation will be solely used for the purpose of determining both service eligibility and reasonable accommodations to be provided. Information from submitted documentation and specific reference of a diagnosed disability will not be placed on any official academic records or transcripts.

Any student may request accommodations, however, Disability Services has the right to determine appropriate and reasonable accommodations for each situation based on all information provided. Disability Services' final accommodation decision(s) may or may not coincide with information presented in the documentation and/or the student's personal preference. If a student is informed that they need additional documentation for a specific accommodation request, they are personally responsible for obtaining this information per general higher education procedures.

**I have read the above information and understand the process and my responsibilities.**
